T521ST

SEMI-AUTOMATIC UP STROKING SAW

Cut-off saw with pneumatic up-stroke of saw blade and adjustable speed. The 10° tilt guarantees the correct positioning of the piece against the fence; a pneumatic clamp, in cycle with the saw blade, ensures the greatest safety. A wide range of accessories can complete the saw to meet every need.

Optional

- 1** Roller table
- 2** Motorised outfeed conveyor belt (in 3 lengths)
- 3** In-feed/out-feed table
- F** Flip-over stop in 3 versions:
 - F1** Manual
 - F2** Pneumatic
 - F3** Vertical pneumatic with manual control

(*) Machine dimensions.
The total length (W) depends on the accessories 1-2-3.
