

# Cabinet Door-Face Frame Assembly Table MT-110

The Dotul Cabinet Door/Face Frame Assembly Table is a heavy duty assembly table that utilizes sliding arms that put downward pressure on the face frame joints. Movable side clamps can be placed in position to give side clamping pressure while the operator screws the face frames together or assembles a cabinet door.

## Features and Benefits

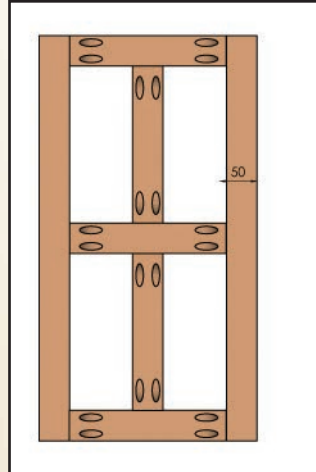

- Heavy duty tube frame construction – Supports the sliding arms and reduces any frame movement from the clamps.
- Ergonomically angled work surface – Helps reduce operator fatigue.
- Large work area – Multiple frames or cabinet doors can be assembled using the optional 2nd clamping arm.
- Easy to move sliding clamp arms – Accurately and easily position the arms and clamps over the face frame joints.

## Additional Features Recently Added:

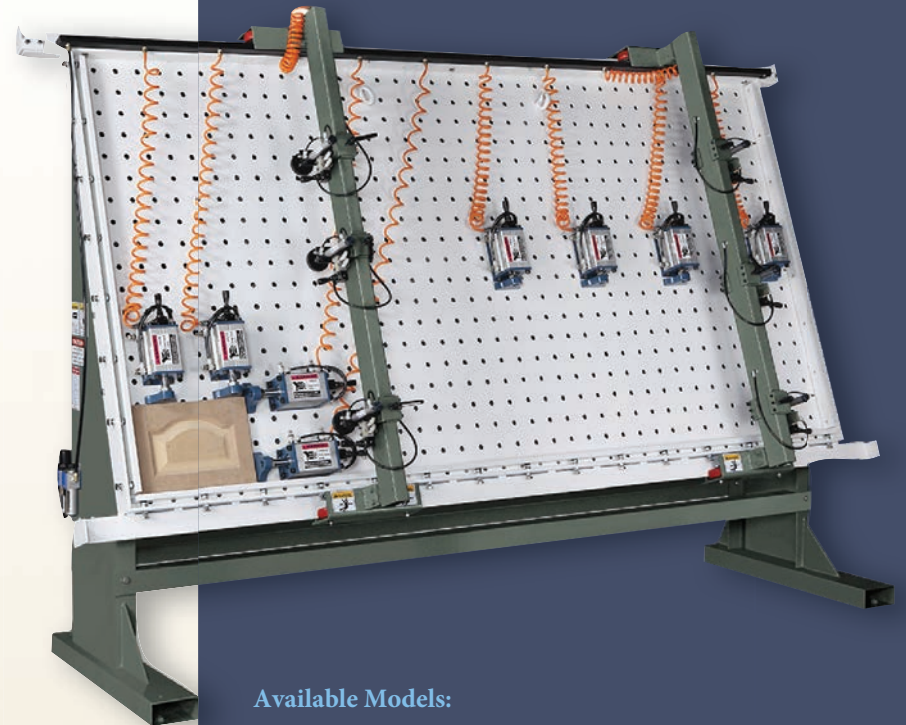

1. Foot pedal to activate the clamps. (Clamps have individual on/off switches also)
2. Movable lower fence which allows the operator to position narrower face frames higher up to make screwing the face frames together more comfortable.
3. All Dotul MT-110 Face Frame Tables are 20° from vertical, so you don't have to lean over as far which makes it easier on the back.

## SPECIFICATIONS

Model -	MT-110
Side cylinder -	#80*100 psi: 8PCS
Clamp cylinder -	#20*100 psi: 6PCS
Machine size -	9'9" x 4'9" x 6'9"
Shipping size -	10'9" x 3'3" x 7'3"
N.W./G.W/ -	1390/1610 Lbs

*Pictured is a sample face frame that can be clamped up in the MT-110 for assembly.*

## Available Models:

All models include: One (1) vertical hold down; six (6) side clamps + three (3) additional clamps

MT-110-48: 4' x 8'

MT-110-510: 5' x 10'

MT-110-512: 5' x 12'

Manufacturer reserves the right to make changes and improvements on machinery as necessary.
