TA SERIES | TABLE SAWS

Powerful industrial 10" - 16" cabinet table saws.

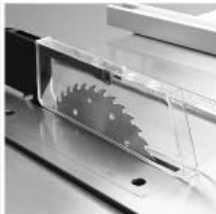

The Cantek TA Series Table Saws are for serious woodworkers and production shops that require an industrial strength and powerful table saw. The large precision-ground & polished cast-iron table and cast-iron saw unit ensure vibration free cutting with optimum cut quality. The quick setting T-square rip fence is equipped with dual inch & metric scales for precise rip cutting. The blade guard is mounted to a splitter with anti-kickback pawls for safe operation. Comes standard with both standard and dado arbors and table inserts. Driven by a powerful motor to make the cuts you need effortlessly.

T-square 50" rip fence

Magnifying lens

Blade guard with anti-kickback splitter

Right tilt to 45°

Blade height and tilt adjustment handwheels

Miter gauge with T-miter slot on both sides of the table

Dado arbor and insert

CSA / UL approved magnetic switch

Key Advantages.

- Heavy-duty cast iron table is precision ground for accuracy & precision
- Industrial strength cast iron saw carriage and trunnion for vibration free cutting
