**30 – 40 HP**

**50 HP**

**DC-300D 30 HP Outdoor Dust Collect System**  
**DC-400D 40 HP Outdoor Dust Collect System**  
**DC-500D 50 HP Outdoor Dust Collect System**

**Features:**

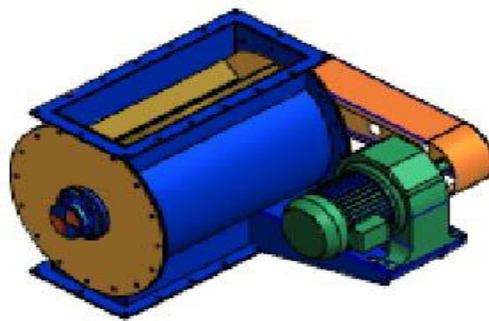

- Functions all in one as Collecting, Filtering, Storage and Outfeeding.
- The needle-felt top bags for optimum filtration efficiency.
- Individual access doors for each filter module, requiring low maintenance.
- Pulse Jet system; Automatically pulses the top bags letting the dust fall into lower collection trucks.

- Optional Air return device to deliver clean air back to working environment.
- Heavy steel metal frame and base.
- Optional Screw conveyor base and Rotary air lock system for automated dust particle delivery.
- Extra large radial-fin type steel impeller for high efficiency air flow.
- Heavy-duty totally enclosed industrial motor for maximum air suction and extended service life.
- Low sound levels to keep the working area quiet.
- Auto air vibration clean device to automatically clean the filter at setting time by itself.
- Equipped with the rotary valve for outfeed material.
- Storage space can be custom designed.

(Training and installation, tooling & rigging are optional)

(Customer is responsible for local regulations and connecting utilities)
