TigerFence

TigerFence brings speed, precision, and productivity to your table saw. It adds automation that can be controlled from one side of the fence, and has a repeatable accuracy of +/- .003 inches (.07mm).

TigerStop®
fast and accurate...every time

Fast and Accurate

Fully Automated Rip Fence For Your Table Saw

Walking around your sliding table saw to adjust a manual fence may seem like a small inconvenience, but over the lifetime of the saw, it adds up to serious wasted time and money.

No More Set Up Time

TigerFence moves to the desired dimension at the press of a button. No more walking to adjust a manual fence, measuring and marking material, and wasting precious labor hours.

Adaptable

If you need more production, don't buy a new saw. Turbocharge your existing table saw with TigerFence! TigerFence can easily attach to almost any table saw.

Easy to Train

An unskilled operator can be trained to use TigerFence to accurately position material in less than 10 minutes.

Fast and Accurate...Every Time

TigerFence is designed with precision linear bearings, ensuring a rigid and dead accurate position every time. TigerFence has a repeatable accuracy of +/- .003 inches (.07mm) so today's parts will be the same size as tomorrow's parts.

Two Sizes

TigerFence comes in a standard size with a working length of 51″ and an overall length of 62". TigerFence Extra comes in a working length of 70″ and an overall length of 82″.

Features and Upgrades

- Jog Mode
- Safe zone alert when fence is close to the blade
- Calculator Mode
- Preset Function
- Metric, Decimal and Fractional Inches
- Part List Interface
- Includes standard controller that can be upgraded to a TigerTouch controller
- Upgrade to Dynamic Optimization™ software
- Upgrade to TigerLink 6 Cut List Downloading Software
